

# GOLF OUTING

Thursday Afternoon, September 30, 2010

---

For those who want to play golf after the closing meeting on Thursday afternoon, September 30, we have arranged special pricing with the **Myrtle Beach National Courses and River Oaks Golf Plantation.**

***Myrtle Beach National South Creek*** is a Palmer design and the favorite among its members. With its guarded bentgrass greens and numerous waste areas, winding through wetlands and hardwood forests, this course demands finesse from every golfer. This spectacular blend of natural and man-made challenges was voted “top 100 in

America” by *Golf for Women Magazine* in 2002.

***Myrtle Beach National West Course*** is one of the most challenging courses in Myrtle Beach. From the regular tees, golfers of all abilities will enjoy the classic Arnold Palmer design. Be prepared for a professional challenge from the back tees as the numerous doglegs, fairway bunkers, and natural hazards come into play. Winding through a forest of stately pines in an undeveloped setting, the West course offers golfers the feel of a private club.

***River Oaks Golf Plantation*** is three nine-hole courses featuring recently renovated undulating Champion Ultradwarf greens and tree-lined fairways. Follow Highway 501, over the Intercoastal Waterway Bridge, to a golfer’s sanctuary where mornings are spent chasing birdies and afternoons are spent in search of eagles.
