Burnout

Huey Mills, Carolina Christian Academy, Lancaster, SC

Thousands of teachers have burned out and are asking, "Should I teach next year or do something else?" What you do now will determine if you will keep your seasoned and excellent teachers or if you will have to replace them because of burnout. In this workshop, both administrators and teachers will learn the causes of burnout (not what we usually think), how to identify the symptoms, and what both schools and teachers can do to overcome it.

Biblical Worldview: What is it? Do you have it? Why should you?

Mike Bryant, GACS, Bogart, GA

Studies show that one of the most effective ways to teach is through modeling. Teachers must set a biblical example before their students. Long after the academics of "who taught me what" are forgotten, students will remember the character of their teachers: whether they were fair, honest, mean, unjust, loving, etc. Christian teachers need a biblical worldview that accurately portrays a correct picture of a Christ-like life. Do you know what a biblical worldview is? Do you have one?

A Biblical Path to Lasting Change - Part I

James Binney, L.E.A.D. Ministries, Taylors, SC

Where are all our converts? Why do so few who claim salvation show a change in their lives? Why do so few who change really stick? Why do so few who stick really seem to make a difference? The answer to these timeless questions may be found in a failure to follow God's plan for lasting change. "But God be thanked, that ye were the servants of sin, but ye have obeyed from the heart that form of doctrine which was delivered you." (Romans 6:17) Throughout Romans chapter six, Paul makes a compelling case for a distinct change in the three basic parts of man's personality: the mind, the heart, and the will.

FREQUENTLY ASKED QUESTIONS

Q Why can't we have more workshops in my area of interest or ones that I have requested?

A Every effort is made to schedule a wide variety of speakers in as many different subjects as possible. Sometimes we are limited by the number of workshop periods we can offer and by the fact that certain speakers are unavailable. We try to cover all major areas over a two to three year period of time. Teachers who attend conventions on a regular basis will find that most areas of interest are covered numerous times over this two to three year cycle.

Q Why do we not have more of a particular type of vendor exhibiting at the convention?

A We have an extensive list of a variety of vendors that are informed of the convention each time it is offered. Many companies are on a budget and are limited in the number of convention trips they can make during a year; therefore, they may decide not to attend a particular convention if they believe it will not be profitable enough for them. **That is why it is very important that you visit the exhibitors that do attend. Encourage them and support their efforts so that they will continue to attend the convention.**

Q Why can't more room be provided for popular workshops?

A The popularity of various workshops and speakers may vary from one year to the next. Even with the use of this year's Online Intent Form, it is nearly impossible to predict exact workshop popularity. We do our best to place popular workshop leaders and popular topics in large rooms.

Q Why don't workshop leaders provide handouts?

A What the workshop leader provides for distribution is left entirely up to him/her. Each speaker is encouraged to provide handouts, but is not required to do so. Predicting the number of handouts that are needed can be difficult.

(continued from Part I) Where are all our converts? Why do so few who claim salvation show a change in their lives? Why do so few who change really stick? Why do so few who stick really seem to make a difference? The answer to these timeless questions may be found in a failure to follow God's plan for lasting change. "But God be thanked, that ye were the servants of sin, but ye have obeyed from the heart that form of doctrine which was delivered you." (Romans 6:17) Throughout Romans chapter six, Paul makes a compelling case for a distinct change in the three basic parts of man's personality: the mind, the heart, and the will. In this single verse he summarizes his teaching. He commends the Roman Christians for changing at all three levels: the will -- "Ye have obeyed"; the heart -- "from the heart"; the mind -- "that form of doctrine." Helping Your Teachers with Instructional Long-Range Planning

Brian Carruthers, Bob Jones University, Greenville, SC

Quality instructional planning is much more than starting at the beginning of the textbook and hoping to finish it before the end of the school year. Effective long range planning requires a thorough understanding of the students, the curriculum, assessment procedures, and communications. This workshop will explore how to effectively create an instructional long-range plan which will serve as a road map for the teacher to follow throughout the school year.

Science is Fun!

Roland Pittman, Tabernacle Christian School, Greenville, SC

Many elementary and middle school teachers are uncomfortable with science. They make it a dry, dull, and boring experience. By the time students get to high school, science has become a hated subject. It need not be. Enthusiasm for science can be created during elementary and middle school. Demonstrations and hands-on activities make science fun. This workshop will demonstrate how to make science interesting and enjoyable. Participants will take part in hands-on activities.

Apologetics Without Apologizing

John Bishop, God Is So Good Ministries, Murfreesboro, TN

Many people mistakenly believe that the study of apologetics is apologizing for what God has said in His Word or is doing in the world. We would certainly do neither of the above, nor is it necessary to do so. Paul used the Greek word *apologia* in Phillipians 1:7 and 17, and both times, the word is translated "defence" which Paul said was part of his ministry. Young people need to know how to answer those who attack the Word of God.

Why Belief Matters

Reba Bowman, Dare For More Ministries, Chattanooga, TN

We may prefer that our young people embrace biblical beliefs, but what harm will come if they don't? Research consistently shows that what a person believes translates into attitudes and behaviors. We need a generation of transformed followers of Christ who know why they believe what they believe. This will require that young people understand and experience at least four characteristics about true Christianity.

Secondary Teachers, Administrators, and Pastors Visit Exhibits

The Ministry of Teaching: A Burdened Servant

Keith Scott, Mountain Area Christian Academy, Morganton, GA

The teacher who teaches because it is his job, and the teacher who teaches because it is his ministry are mostly different for one particular reason – their burden. Do we as Christian school teachers have the same burden for the people of our ministries as Christ did for the people of His ministry? This workshop examines teaching as a ministry. We will also look at some of the dangers facing the Christian school teacher.
